

BLUE FLAME GAS

Can You Predict The Price of Propane Next Winter?

Neither can we, which is why Blue Flame's fixed price program protects you in the winter months when you need it most. Anyone can advertise a low price in the summer, but what good does that do in January? Some even advertise a "fixed markup", what's that?

Blue Flame guarantees your price per gallon will remain the same for the entire year!!

8 out of 10 years our fixed price customers pay less than a customer with a fluctuating price, last year was no different. Fixed price customers saved over \$400 on their annual propane purchases.

Blue Flame your locally owned, family operated propane company where the price you pay is the price per gallon, there are no additional delivery fees, regulatory fees, hazmat fees, or tank lease fees. The price is the price, no surprises, guaranteed!

Call us today to find out more about our fixed price programs.
